

What would you use this bike for?

Climbing, sprinting, rolling hills, recovery ride, Sunday "world championships"

How would you like this bike to feel? Stiff, comfortable

How many KMs / hours do you ride a week?

Any complaints about current bike (which one?)? How would you hope it can be better?

What bikes do you currently own? Describe each of them if possible, and let us know what materials they are, and how you feel about each of them. If you have too many bikes, tell us about your top 5 bikes.
